#CoreCompetencies

Broadcast & TV Operations

- ✔ Setup and technical operation of TV channels
- ✔ Broadcast scheduling and playlist management
- ✔ 24/7 broadcast operations and workflows
- ✔ Understanding of signal paths and TV signal flow

Streaming & Broadcast Technology

- ✔ Development of playout systems
- ✔ Streaming and live streaming infrastructure
- ✔ SRT-based signal transmission
- ✔ Cloud-based broadcast systems

Software development

- ✔ Desktop applications (C#, Python, Electron)
- ✔ Mobile apps (Flutter, MAUI - Android & iOS)
- ✔ Web platforms
- ✔ streaming websites

IT & Infrastructure

- ✔ Linux, Windows, macOS
- ✔ Server administration and system operations
- ✔ Network architecture, Database, Web
- ✔ Multicast / Unicast streaming

Systems Developed

- ✔ TV Playout System
- ✔ Cloud Playout Infrastructure
- ✔ Streaming Platform for Broadcast Distribution
- ✔ Desktop and Mobile Applications

Media & Data

- ✔ AI tools for media production
- ✔ Voice-over Talent
- ✔ Broadcast and streaming data analysis
- ✔ IVR System - Quiz & Life Coach

#portfolio

Websites, Streaming & Apps

Development of modern web platforms, streaming solutions and cross-platform applications for media and broadcast projects.

PlyCast: TV Playout System

Custom modular playout system for TV channels supporting live streams, files and feeds with scheduling, failover and reliable 24/7 operation on standard hardware or in the cloud.

SRT Broadcast Transmission System

Custom SRT-based system for reliable low-latency IP transmission of TV signals for broadcast and distribution networks. Currently used by 10+ TV channels in Switzerland.

Reality TV Production

Development and production of reality TV formats focused on authentic storytelling, engaging narratives and professional execution for television and streaming.

#skills

Broadcast & Streaming

TV Playout Systems

Grass Valley, AirBox, PlyCast

Broadcast Signal Flow

SRT, UDP, RTMP, HLS

Live Streaming Infrastructure

Live-Events, Social-Media

Software Development

Desktop

C# / .NET, VS Code, Python

Apps (Mobile)

Flutter, MAUI

Web

Electron, Pythom, PHP, JS

Operating Systems

PC

Windows

Linux

Debian Based

Mac

macOS

Server & Infrastructure

Administration

Apache, BIND, Rights, Backup

Database

MySQL, PostgreSQL, SQLite

Network

SSH, FTP, Storage

Networking

Router & Switch Configuration

Cisco, Zyxel, Renkforce

TCP/IP Networking

LAN, Firewall, NAT

Multicast / Unicast

SRT, Videostream

Media & Video Production

Adobe Creative Cloud

Premiere Pro, After Effects, Photoshop

Blackmagic

DaVinci Resolve, FUSE, Color Grading

Print

InDesign, Scribus, Illustrator

#ProfessionalExperience

Technology and media professional with extensive experience in broadcast technology, streaming infrastructures, software development, and IT systems. My career began with an apprenticeship in telecommunications and networking, providing a strong technical foundation in communication systems and network infrastructure.

Over time, I specialized in the TV and broadcast industry, taking on responsibilities in technical operations, live production environments, and the development of modern streaming and playout systems. In addition to operational roles, I have also founded and managed companies in the fields of media production and technology.

My focus is on building reliable technical infrastructures, developing innovative broadcast and streaming solutions, and leading teams in complex technical environments.

2021
